moth traps and  
related equipment

## The ALS Annual Moth Trap competition

**2020: A moth recording experience with a difference** – A photographic competition that may be simply just a moth trap in an unusual or scenic location or with a group of friends 'out of the ordinary'. We have seen photo's in the past showing moth traps cut off by a rising tide on a saltmarsh or where someone has fallen over carrying a moth trap through mud, we are asking for anything unusual like the lovely photo below sent to us by Ben Coleman of his wedding day at Rutland Water,..... such a happy event which has prompted this years competition!. If unsure, send to us anyway at [sales@angleps.com](mailto:sales@angleps.com)

This competition will run annually from the 1<sup>st</sup> January to the 30<sup>th</sup> April with a different themed topic each year. The winner will receive a Mains 20w Compact Heath Trap (UV07) like the one on our web site at <https://www.angleps.com/mothtraps.php>

Competition rules are:

- By entering the competition you are giving us permission to use your photo on our web site or on our ALS Facebook page
- Only open to UK residents only
- Winners chosen by judges discretion
- Winners to send us photographs of the moth trap in use
